Music Composition Rules

Reflect on the 2014-2015 Theme: *The world would be a better place if...*

MUSIC COMPOSITION is the process of creating a new piece of music. The **composer** (student submitting entry) is a person who expresses their own thoughts and ideas through the use of sound. The student composer may submit an entry performed by an individual or group and/or make use of a sound library generated performance of a composed score. Student composers are not required to perform their composition. *Middle and high school grade divisions require music score/tablature/notation, either traditional or tablature.*

Consider the following musical styles and instruments to portray your original composition: A Cappella, Blues, Choral, Country, Electronic, Hip hop, Jazz, Latin, Musical, Orchestral, Pop, R&B, Religious, Rock, Symphonic/Concert Band and Traditional.

All instruments, sounds, styles and combinations are accepted. Software may be used to produce an audio recording that does not include commercially pre-programmed imported MIDI or other source files. Entries containing algorithmic composition techniques are not accepted. An explanation of the origin of the music and/or the significance of the music style might be a useful addition to the artist statement when submitting a music composition that involves traditional, cultural or regional instruments. Whether an entry displays formal composition technique or a simple approach, it will be judged primarily on how well the student uses his or her artistic vision to portray the theme, originality and creativity.

Suggestions for Audio Quality:

- Do not place the recording device on top of an instrument(s) or speakers.
- Turn off all noise-making devices in the room (air conditioners, fans, telephones, etc.).
- Record a short test and listen to it. If needed, change the record volume or microphone location.
- Make sure the music is audible on the recording.
- Allow for two seconds of silence at the beginning and end of your recording.
